Can I use Corte Certo to optimize bar/profile cutting plans?

Basicas · https://cortecerto.com/en/docs/can-i-use-corte-certo-to-optimize-bar-profile-cutting-plans/

There are users who use the 2D program to optimize linear materials, such as bars, profiles, "aluminum", pipes, tubes, cables, etc. Although it works perfectly, in these cases we recommend using Corte Certo 1D, which is specific for this.
