Success factors are:

- Longevity: more than 20 years in the market guarantee reliability.
- High number of satisfied customers in several countries, as a guarantee that Corte Certo has been compared with the most diverse competitors, before being adopted
- Considerable number of large customers, well structured, with their own IT teams, therefore able to test and choose the best software available on the world market
- Affordable price: software licenses with similar attributes can cost 10 to 20 times more
- Superior technology: some features are exclusive to Corte Certo and no other competitor brings together such a rich set of tools
- Full Support (not just for the business part or basic program operations) of the program
- Ease of learning and daily use
